

It's all just a bunch of symbols

$$\iint_R f(x, y) \, dA$$

---

$$\oint_C F \cdot dr$$

---

$$\nabla f(x, y, z)$$

---

$$\int_C f(x, y, z) \, ds$$

---

$$\iiint_T \rho(x, y, z) \, dV$$

---

$$\mathcal{D}_{\hat{u}} f(x, y)$$

---

$$\int_C P \, dx + Q \, dy$$

---

$$\iint_R 1 \, dA \text{ or } \iiint_T 1 \, dV$$

---

$$\iint_R \frac{\partial Q}{\partial x} - \frac{\partial P}{\partial y} \, dA$$

---

$$\nabla \cdot F \text{ and } \nabla \times F$$

---
